Submission of the Republic of Moldova under General Assembly resolution 79/59

"Information on confidence-building measures in the field of conventional arms"

The Republic of Moldova presents the following information in response to General Assembly resolution 79/59, which invites Member States, on a voluntary basis, to provide information on confidence-building measures (CBMs) in the field of conventional arms.

1. National legal and institutional framework

The Republic of Moldova implements confidence-building measures related to conventional arms within a clear national legal framework.

In accordance with Article 6(1) of Law No. 147/2017 on the regime of conventional weapons and ammunition, special means, and military equipment held by the National Army and foreign military forces legally present on the territory of the Republic of Moldova, the Ministry of Defence, through its specialized structures, is responsible for conducting operations involving conventional weapons and ammunition, special means, and military equipment.

The Republic of Moldova remains committed to the objectives of General Assembly resolution 79/59 and continues to support efforts aimed at strengthening confidence-building measures in the field of conventional arms.
